

# Fast Readers

from the EMAS team Cambridge Education @ Islington

**SET ONE:** This set of books was written by the EMA team at Cambridge Education @ Islington. They have storylines located in British urban schools, with characters based on children and young people we have known and worked with. Level One books have just one or two sentences per page. Level Two is more advanced, with two or three sentences per page. Our purpose was to produce books that were very accessible in terms of subject matter, structure and vocabulary, but of considerable interest to the reader.
